

At GBJJ, we are committed to promoting clean sport and instilling this mindset in all our students. Clean sport is a widely-used term in sport worldwide and, to support this, the World Anti-Doping Agency (WADA) has developed a Clean Sport Sporting Code that is followed by sporting organisations globally.

To ensure that all children embrace this mindset, WADA have designed a course for parents and caregivers. We encourage parents and caregivers of children on our talent pathway to complete this awareness training as soon as possible as this is an integral part of the Youth Development Programme.

The course materials are engaging, interesting and provide valuable insights on how to guide your child in adopting the spirit of clean sport and what the anti-doping requirements of international sport involve. To embark on this journey, scan the QR code below, or visit the WADA Anti-Doping Education and Learning (ADEL) URL to create an ID. Then, complete the course for parents (Athlete Support Personnel). Look for:

Parents of High Performance Athletes' Education/Athlete Support Personnel

Take care to select the required language as there are multiple language versions.

Upon completion, you will receive a recognised certificate. All completed certificates should be emailed to our Head of Anti-Doping, Samantha Baron, at samantha@gbjj.co.uk. PLEASE NOTE THAT COMPLETION OF THIS TRAINING IS MANDATORY. ANTI-DOPING EDUCATION IS A KEY PART OF THE YOUTH DEVELOPMENT PROGRAM AND INTERNATIONAL SPORT. Make sure that you and your child prepare appropriately to compete in a clean high-performance sport environment.

Please note that children under 16 should not create an online learning ID on the WADA website. GBJJ education materials for 7-11 and 11-16 will be available in the near future on the GBJJ website.

We believe that by working together, we can create a culture of clean sport to ensure a fair and positive sporting environment for all students. Let's start this important journey today!
